Company Overview

We are a clinical-stage biotechnology company engaged in the discovery and development of targeted biotherapeutics to treat serious diseases and conditions with unmet medical needs, including neurodegenerative diseases, cancer, and autoimmune disorders. We believe we are the leader in the field of semaphorin 4D, or SEMA4D, biology and that we are currently the only company targeting SEMA4D as a potential treatment for neurodegenerative diseases, cancer, and autoimmune disorders. SEMA4D is an extracellular signaling molecule that regulates the migration of immune and inflammatory cells to sites of injury, cancer, or infection. We are leveraging our SEMA4D antibody platform and our extensive knowledge of SEMA4D biology to develop our lead product candidate, pepinemab, an antibody that we believe utilizes novel mechanisms of action. We are focused on developing pepinemab for the treatment of Alzheimer's disease, Huntington's disease, head and neck cancer, and pancreatic cancer. Additionally, third-party investigators are studying pepinemab in clinical trials in breast cancer, as well as in "window of opportunity" studies in other indications, including head and neck cancer and melanoma.

We have developed multiple proprietary platform technologies and are developing product candidates to address serious diseases or conditions that have a substantial impact on day-to-day functioning and for which treatment is not addressed adequately by available therapies. We employ our proprietary platform technologies, including through our work with our academic collaborators, to identify potential product candidates for sustained expansion of our internal product pipeline, and to facilitate strategic development and commercial partnerships. Our lead platform technologies include our SEMA4D antibody platform and our ActivMAb[®] antibody discovery platform. Our lead product candidate pepinemab is currently in clinical development for the treatment of Alzheimer's disease, head and neck, pancreatic, and breast cancer, through our efforts our through investigator-sponsored trials. Our additional product candidate VX5 is in an earlier stage of development and was selected using our ActivMAb platform. We believe our multiple platform technologies position us well for continued pipeline expansion and partnership opportunities going forward.

Our current research and development activities primarily relate to clinical development in the following indications:

- **Huntington's Disease.** We evaluated pepinemab for the treatment of Huntington's disease in our Phase 2 SIGNAL trial. Topline data for this trial, consisting of 265 subjects, was reported in late September 2020. Although the study did not meet its prespecified primary endpoints, it provided important new information, including evidence of cognitive benefit and a reduction in brain atrophy and increase in brain metabolic activity in patients with manifest disease symptoms. An improved study design would focus on patients with early signs of cognitive or functional deficits because they appeared to derive the greatest treatment benefit. We are evaluating our development strategy in terms of business opportunities and other near-term clinical activities. To advance planning for a potential Phase 3 study of pepinemab in Huntington's disease, we requested a Type C meeting with the U.S. Food and Drug Administration, or the FDA, to discuss details of the study design and key endpoints, and the FDA has granted this meeting request.

- **Cancer Studies.** We and others have shown that SEMA4D, the target of pepinemab, is highly expressed in head and neck cancer where it impedes recruitment and activation of dendritic cells and cytotoxic T cells that can attack the tumor while also inducing differentiation of myeloid derived suppressor cells that inhibit tumoricidal immune activity. Head and neck cancer is, therefore, a cancer in which we believe immunotherapy with pepinemab in combination with a checkpoint inhibitor such as KEYTRUDA® (pembrolizumab) could have a significant therapeutic impact. We have entered into a collaboration with Merck Sharp & Dohme, which is supplying KEYTRUDA, for first-line treatment of up to 65 head and neck cancer patients in a Phase 1b/2 trial. In a similar arrangement, we are collaborating with Merck KGaA (EMD Serono in the U.S.), which is supplying Bavencio® (avelumab), another checkpoint inhibitor, for evaluation in a Phase 1b/2 trial in combination with pepinemab in pancreatic cancer. Pepinemab is also being evaluated by third parties in investigator-sponsored trials for breast cancer, and in multiple “window of opportunity” studies in additional cancer indications.
- **Alzheimer’s Disease.** In April 2023, we reached our enrollment target of 40 participants for the Phase 1b/2 SIGNAL-AD study evaluating pepinemab as a potential treatment for people with mild dementia due to Alzheimer’s disease. SIGNAL-AD topline data is expected in mid-2024, after all the participants have received 12 months of treatment.

Implications of Being an Emerging Growth Company and a Smaller Reporting Company

We are an “emerging growth company,” as defined in the Jumpstart Our Business Startups Act of 2012, or the JOBS Act. Section 107(b) of the JOBS Act provides that an emerging growth company can leverage the extended transition period, provided in Section 102(b) of the JOBS Act, for complying with new or revised accounting standards. Thus, an emerging growth company can delay the adoption of new or revised accounting standards that have different effective dates for public and private companies until those standards apply to private companies. We have elected to use this extended transition period and, as a result, our condensed consolidated financial statements may not be comparable to companies that comply with public company effective dates of such accounting standards.

We will no longer be an “emerging growth company” after December 31, 2023 and will be unable to take advantage of the exemptions from various requirements applicable to public companies including those discussed above.

We are also a “smaller reporting company” and will remain a smaller reporting company while we have determined that either (i) the market value of our stock held by non-affiliates was less than \$250 million as of the last business day of our most recently completed second fiscal quarter or (ii) our annual revenue was less than \$100 million during our most recently completed fiscal year and the market value of our stock held by non-affiliates was less than \$700 million as of the last business day of our most recently completed second fiscal quarter. If we are a smaller reporting company at the time we cease to be an emerging growth company, we may continue to rely on exemptions from certain disclosure requirements that are available to smaller reporting companies, including many of the same exemptions from disclosure obligations that are

available to emerging growth companies, such as reduced disclosure obligations regarding executive compensation. We may take advantage of one or more of these reporting exemptions until we are no longer a smaller reporting company.

Private Placements and ADDF Issuance

On March 30, 2023, we issued and sold an aggregate of 4,975,608 shares of our common stock in a private placement, or the March 2023 Private Placement, at a purchase price of \$0.41 per share, for aggregate gross proceeds of approximately \$2.04 million. In connection with the March 2023 Private Placement, we agreed to file with the SEC a registration statement covering the resale of the shares of our common stock purchased in the March 2023 Private Placement by one of the Selling Stockholders.

On May 12, 2023, we issued and sold an aggregate of 7,908,516 shares of our common stock in a private placement, or the May 2023 Private Placement, at a purchase price of \$0.37428 per share, for aggregate gross proceeds of approximately \$2.96 million. In connection with the May 2023 Private Placement, we agreed to file with the SEC a registration statement covering the resale of the shares of our common stock purchased in the May 2023 Private Placement by three of the Selling Stockholders.

In December 2019, we were granted an award, or the ADDF Award, in the form of an investment of up to approximately \$3 million in our common stock, in two installments, from Alzheimer’s Drug Discovery Foundation, or ADDF, one of the Selling Stockholders, to evaluate our lead drug candidate, pepinemab, in Alzheimer’s disease. On May 16, 2023, in connection with the second installment of the ADDF Award, we entered into a stock purchase agreement with ADDF pursuant to which we sold an aggregate of 2,521,118 shares of our common stock to ADDF at a purchase price of \$0.39378 per share for aggregate gross proceeds of approximately \$0.99 million, or the ADDF Issuance. In connection with the ADDF Issuance, we agreed to file with the SEC a registration statement covering the resale of the shares of our common stock purchased in the ADDF Issuance.

We are filing this registration statement to cover the resale of an aggregate of 3,815,642 shares of our common stock purchased by the Selling Stockholders in the foregoing transactions.

In addition, in certain states, such shares may not be sold unless they have been registered or qualified for sale in the state or an exemption from the registration or qualification requirement is available and complied with.

The Selling Stockholders may also sell or transfer shares of common stock pursuant to any available exemption from the registration requirements of the Securities Act, including under Rule 144 promulgated under the Securities Act, or Rule 144, if available, rather than under this prospectus. In addition, the Selling Stockholders may transfer the shares of common stock by other means not described in this prospectus.

The Selling Stockholders may also sell the shares directly to market makers acting as principals and/or broker-dealers acting as agents for themselves or their customers. Such broker-dealers may receive compensation in the form of discounts, concessions, or commissions from the Selling Stockholders and/or the purchasers of shares for whom such broker-dealers may act as agents or to whom they sell as principal or both, which compensation as to a particular broker-dealer might be in excess of customary commissions. Market makers and block purchasers purchasing the shares will do so for their own account and at their own risk. It is possible that the Selling Stockholders will attempt to sell shares of common stock in block transactions to market makers or other purchasers at a price per share that may be below the then market price.

the Selling Stockholders and/or purchasers of the common stock for whom the broker-dealers may act as agent. The Selling Stockholders may agree to indemnify any agent, dealer, or broker-dealer that participates in transactions involving sales of the shares if liabilities are imposed on that person under the Securities Act.

The Selling Stockholders have advised us that they have not entered into any agreements, understandings, or arrangements with any underwriters or broker-dealers regarding the sale of their shares of common stock, nor is there an underwriter or coordinating broker acting in connection with a proposed sale of shares of common stock by the Selling Stockholders. If we are notified by the Selling Stockholders that any material arrangement has been entered into with a broker-dealer for the sale of shares of common stock, if required, we will file a supplement to this prospectus.

In connection with the sale of the securities or interests therein, the Selling Stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the securities in the course of hedging the positions they assume. The Selling Stockholders may also sell securities short and deliver these securities to close out their short positions, or loan or pledge the securities to broker-dealers that in turn may sell these securities. The Selling Stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or create one or more derivative securities that require the delivery to such broker-dealer or other financial institution of securities offered by this prospectus, which securities such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

With regard only to the shares it sells for its own behalf, each Selling Stockholder may be deemed an “underwriter” within the meaning of the Securities Act. This offering as it relates to each Selling Stockholder will terminate on the date that all shares offered by the Selling Stockholder pursuant to this prospectus have been sold.

We may suspend the sale of shares by the Selling Stockholders pursuant to this prospectus for certain periods of time for certain reasons, including if the prospectus is required to be supplemented or amended to include additional material information.

If the Selling Stockholders use this prospectus for any sale of the shares of common stock, the Selling Stockholders will be subject to the prospectus delivery requirements of the Securities Act.

We are required to pay the expenses in connection with the registration of the shares being registered hereunder. We have agreed to indemnify the Selling Stockholders against certain losses, claims, damages, and liabilities, including liabilities under the Securities Act.

We agreed to keep this prospectus effective until the date that (i) the securities may be resold by the Selling Stockholders without registration and without regard to any volume or manner-of-sale limitations by reason of Rule 144, without the requirement for us to be in compliance with the current public information under Rule 144 or any other rule of similar effect or (ii) all of the securities have been sold pursuant to this prospectus or Rule 144 or any other rule of similar effect.

Regulation M

We have advised the Selling Stockholders that while they are engaged in a distribution of the shares included in this prospectus they are required to comply with Regulation M promulgated under the Exchange Act. With certain exceptions, Regulation M precludes the Selling Stockholders, any affiliated purchasers, and any broker-dealer or other person who participates in the distribution from bidding for or purchasing, or attempting to

Regulation M also prohibits any bids or purchases made in order to stabilize the price of a security in connection with the distribution of that security. All of the foregoing may affect the marketability of the shares offered hereby this prospectus.
